01. Simple User Interface

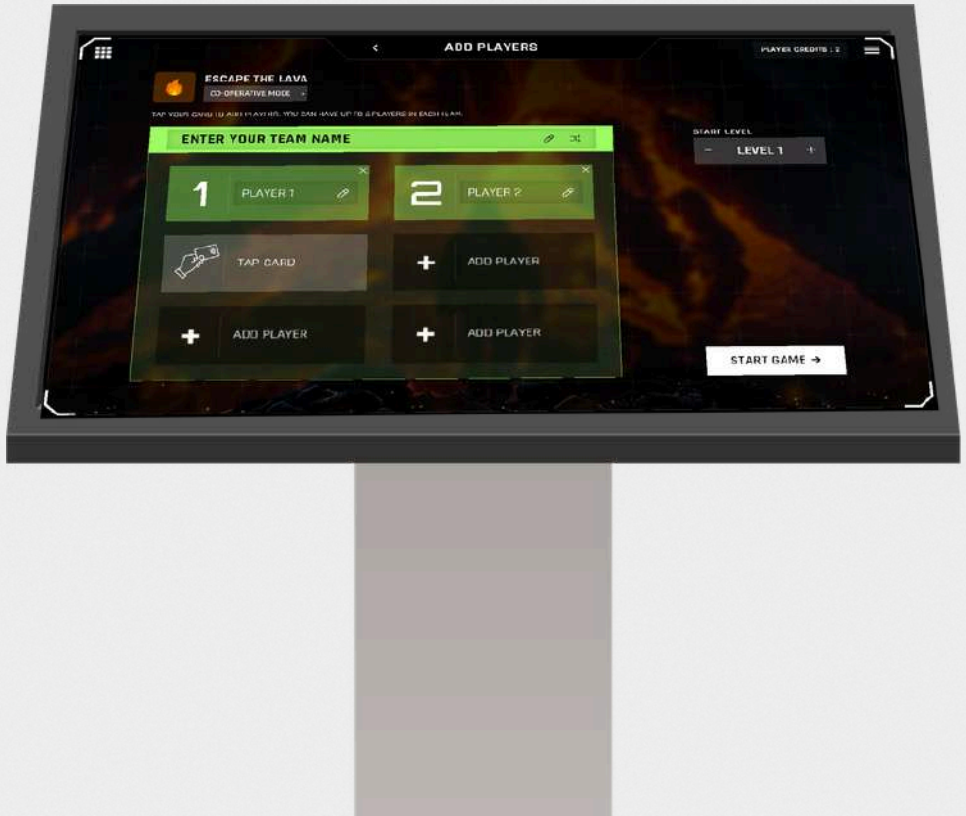

100+ hrs were spent observing kids & adults using our software, to make the user interface ultra-simple & modern

02. Audio-Visual Tutorials

Audio-Video tutorials are integrated before and during the game to make sure that the player is never confused

03. Engaging Gameplay

Our team has iterated every game 10+ times in development to perfect the levels, sounds, and play experience

04. Extra-Player Detection

The game pauses and triggers an alarm when more than registered players are on grid.

05. Multi-lingual Support

We support English, French, Spanish and other popular languages. We build support for your local language for free.

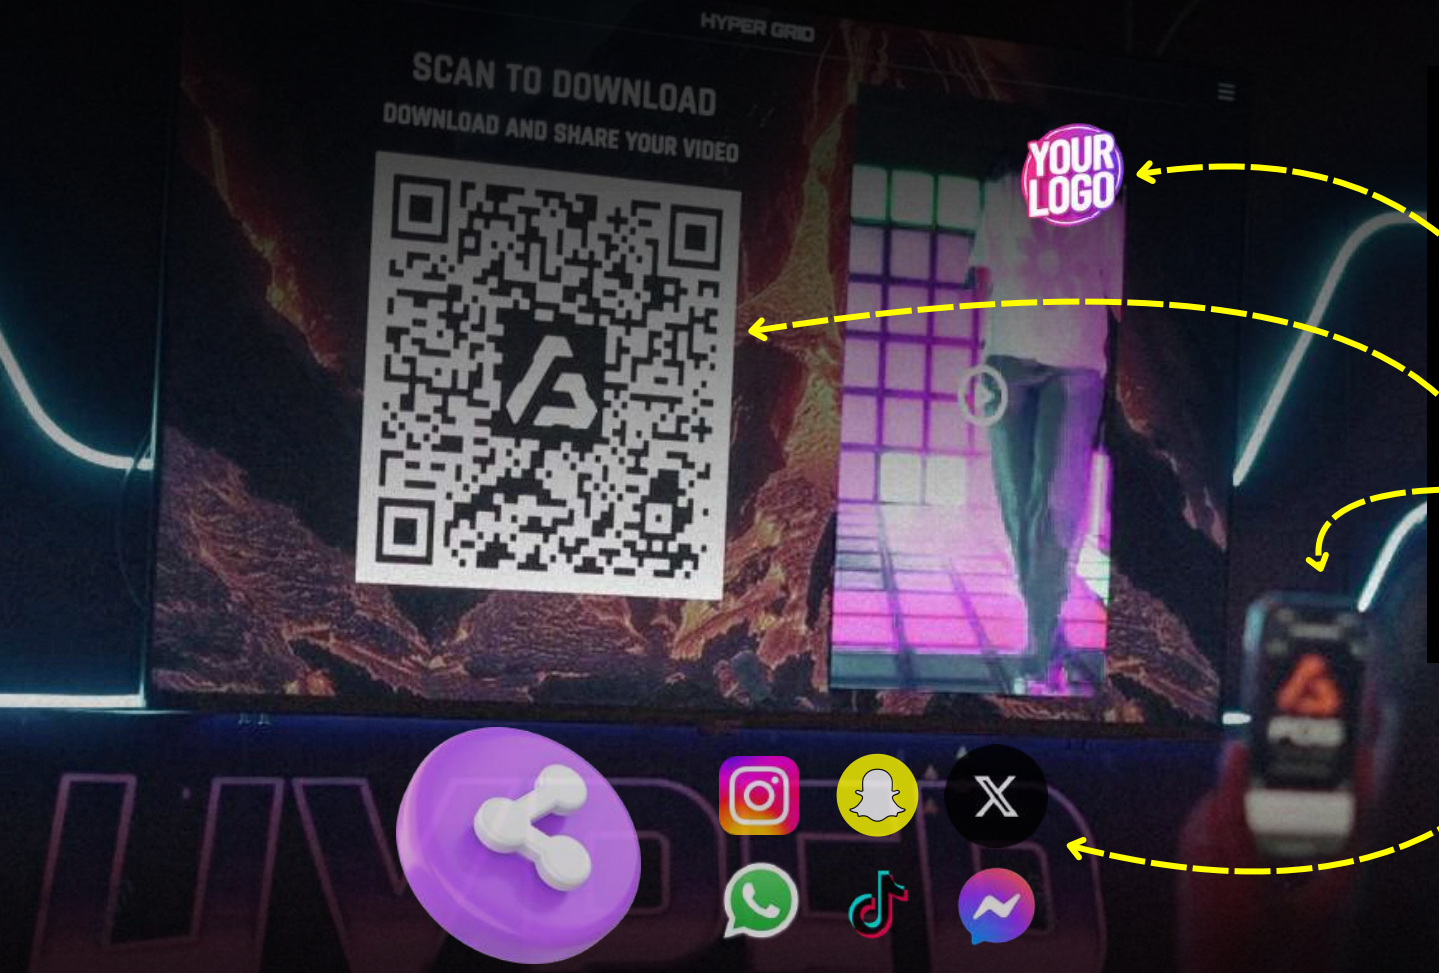

06. Regular OTA Updates

New games, features, and improvements are pushed automatically to our software remotely, continuously improving it
